

**Berkley Parks & Recreation**

**YOUNG ENGINEERS  
CAMPS AUGUST 6 - 10**

**K'NEX® Big Builders Camp - ages 4 - 6**

Each camper will learn about different subjects each day and will build/play with two different models daily. Camp enables children to have FUN learning by integrating K'NEX with general knowledge in nature, space, science, transportation and day to day physics. This camp illustrates theoretical knowledge in these fields through the use of stories, thinking, social games and model building and HAVING FUN!! Instructors also emphasize personal interaction and building a sense of self-confidence among all children participating.

**\$76      10:00 - 11:30 am**

**LEGO® Challenge Camp - grades 1 - 5**

Participants will learn about different subjects daily and will build/play with two different models each day. Camp integrates LEGOs® with scientific and mathematical principles in a FUN and EXCITING way!

Teaching is conducted using customized LEGO® kits with motors, gears and batteries. This Camp utilizes an Edutainment (Education + Entertainment) approach, transforming the learning process into a game while introducing children to theoretical and practical knowledge in the fields of Science, Technology, Engineering and Mathematics (STEM).

**\$129      12:30 - 3:00 pm**

**Instructor: Building Engineers**
