FOR PARENTS

***Baby Sign Workshop**

Monday, July 17, 6:30pm

Babies communicate with their facial expressions, voices, and bodies.

When we treat babies' body language as

communication and try to figure out what they're telling us, it's easier for us to meet babies' needs, get to know our babies better, feel closer to them, and start two-way conversation even before they can talk.

Learn how you can model, encourage, and respond to babies' body language by using gestures and baby signs as you talk with children in everyday interactions.
